

ELVIN HARRIZON BIN M BENLY RYXLER

Email: elvinharrizon90@gmail.com | Phone: 011-24097634 | Location: Sri Aman, Sarawak

PROFESSIONAL SUMMARY

Versatile IT Professional with hands-on experience in public sector ICT operations, system analysis, and fullstack web application development. Proven track record in analyzing operational requirements to design, implement, and maintain internal digital systems including healthcare intranet portals, automated vendor management platforms, and query chatbots. Skilled in PHP (Laravel), Python (Flask), MySQL, and web security compliance, paired with strong capabilities in managing server infrastructure, network connectivity (LAN/WAN), and end-user technical support across government and corporate environments.

WORK EXPERIENCE

Penolong Pegawai Teknologi Maklumat (Personel MyStep) - Jabatan Kesihatan Negeri Sarawak July 2026 - Present
Role: Contract

- System & Asset Maintenance: Assist in maintaining KKM applications (MPIS, MyWorkspace) and managing technical logs and asset documentation.
- Technical Support: Provide ICT technical support and hardware/software troubleshooting for hospital users to ensure smooth daily operations.
- Network & Infrastructure: Monitor and maintain hospital network connectivity (LAN/WAN) and server room infrastructure.
- ICT Security: Manage user access controls, maintain antivirus compliance, and perform routine data backups.

Vendor Development - Sarawak Energy Berhad January 2026 - May 2026
Role: Internship

- System Development: Co-developed and optimized the Vendor Management portal, streamlining digital content organization and departmental workflows.
- Process Automation: Designed and integrated an automated chatbot to handle Bumiputera tendering inquiries, significantly improving response efficiency.
- Database Management: Maintained and structured comprehensive databases for vendor tracking and panel rotation systems, ensuring data accuracy and seamless retrieval.

Computer Technician - Micron Team (Sarawak) Sdn Bhd March 2023 - May 2023
Role: Internship

- IT Infrastructure Support: Executed hardware and software installations, preventive maintenance, and troubleshooting for various ICT equipment.
- Network Management: Configured and managed local area networks (LAN), including structured cabling and router setups, to ensure optimal connectivity.
- Client Troubleshooting: Delivered prompt technical support to resolve system issues for clients, demonstrating strong problem-solving and customer communication skills.

KEY PROJECTS

Intranet Hospital Serian 2026
Fullstack Developer | Technologies: HTML, Tailwind CSS, Laravel PHP, JavaScript, MySQL, API

- Designed and developed a responsive, full-stack Hospital Intranet Portal using Laravel and Tailwind CSS, centralizing internal announcements, official policy documents, a digital KKM forms repository, and a searchable staff extension directory to streamline hospital operations.

SK Bendang Siam 2026
Backend Developer (Collaborated with the developer from SK Bendang Siam, Perak) | Technologies: HTML, CSS, PHP, JavaScript, MySQL

- Developed the SK Bendang Siam Web System, integrating a school information hub, student result portal, and a full administrative dashboard for student and academic data management.

Vendor Management System (VMS) 2026
Fullstack Developer | Technologies: JavaScript, HTML5, CSS3, Python (Flask), PptxGenJS, PDF.js, Data Analytics, Python, Data Pipelines, Algorithmic Parsing

- Engineered an enterprise-grade Vendor Management System (VMS) featuring highly accurate automated PDF data extraction, dynamic UK/BM localization, and fully automated presentation report processing. Spearheaded the full Software Development Lifecycle (SDLC) for the enterprise Vendor Management System (VMS), from requirements gathering to deployment and continuous integration.

Cell Canvas Entrepreneurship Learning Lab 2025
Co-Innovator / Fullstack Developer (Collaboration with Politeknik Ungku Omar) | Technologies: HTML, CSS, Bootstrap, Tailwind, JS, PHP

- Co-developed an interactive web app for entrepreneurs, featuring a financial planner with PDF/JPG export.

Optical World 2025
Fullstack Developer | Technologies: HTML, Tailwind CSS, PHP, NodeJS, MySQL

- Built a web/mobile e-commerce system for an optical store, featuring AR/AI virtual try-on and an admin panel for inventory/sales management.

EDUCATION

Diploma in Information Technology (Digital) Graduated: May 2026
Politeknik Kuching Sarawak
CGPA: 3.79 | Dean's List Recipient (Semester 1, 2, 3, 4, 5 & 6)

Certificate in Information Technology Graduated: July 2023
Kolej Komuniti Mas Gading
CGPA: 3.58

TECHNICAL SKILLS

Programming: Java, Python, PHP, C++, JavaScript, HTML5, CSS3, TypeScript, ReactJS, Next.js, Kotlin, REST API, Tailwind CSS, Node.js
Database & Tools: MySQL, Git/GitHub, MongoDB, Xampp, Postman, Firebase, AWS, AI Tools Integration, Data Pipelines, Data Analytics & Mining
IDE / Software: Visual Studio Code, Android Studio, IntelliJ IDEA, Apache NetBeans, Figma, Antigravity IDE
Artificial intelligence (AI) Tools: ChatGPT, Gemini, Claude, Kimi, Grok, Copilot, Perplexity AI, NotebookLM, Canva AI, Agent AI
Languages: Malay (Excellent), English (Good), Iban (Excellent)

ACHIEVEMENTS

- Gold Medal: 3rd International Next-Generation Innovation & Technology Exposition (iNEXTECH) 2025 - Universiti Teknologi MARA (UiTM) Cawangan Melaka (2026)
- Gold Award: POLIKU Research & Innovation Exhibition (for Optical World) - Politeknik Kuching Sarawak (2025)
- Participant: WorldSkills Malaysia Sarawak (Web Technology) - MIETD Sarawak (2023 & 2025)
- Champion: Web Technology Competition - Politeknik Kuching Sarawak (2024)
- Second Place: Innovation Competition (Web Development) - JomLaunch Youth (Dewan Perniagaan Melayu Malaysia (Kuala Lumpur)) (2022)

CERTIFICATIONS

AI Infrastructure and Operations Fundamentals Jul 2026
NVIDIA | Credential ID: ZM5AXFJ7N99J

Foundations of User Experience (UX) Design Dec 2025
Google | Credential ID: 1XY60LQZGCXS

Managing Technology Projects for Business Success Jun 2026
University of London | Credential ID: HTTXGVZH5B1X
